**A new era in the broadcast industry has started: we're glad to present you OBX, our brand-new top-end 4K HDR OB production system.**

OBX Videe is a **triple-expanding** mobile production unit that can support **up to 30 cameras**. Based on client requirements, the truck can be configured with **dual control rooms** or as one large, **75sq production area** that can accommodate up to 36 onboard team members.

OBX is the **ideal solution** for the Host Broadcasting services for major sporting, music, cultural and entertainment **live** events. Worldwide.

It has been **future driven engineered** and created by Videe R&D department and the system integrator Chromaline putting the maximum attention to each and every aspect of the project. We found **highly innovative construction solutions** with the aim at answering the needs of the operating and creative crew on board in order to maximize their performance and their comfort. OBX has an automation management, an indirect RGB led lighting system – which follows the natural sunlight colour temperature, a fully customizable air conditioning and an each 30 mins air circulation system.

The truck features the **world's leading broadcast technology**, i.e.:

- SONY cameras: HDC-4300, HDC-3500, HDR-P50s...and the amazing and with cinematic look HDC-4800
- Imagine Platinum IP3 28 RU a/v router
- RIEDEL Artist-1024 intercom matrix and Bolero wireless system
- Calrec Artemis and Brio36 audio mixers
- SONY HDR multi-channel PWS-4500 server: never miss any action
- SONY XVS 8000 video switcher 160in 40out + 10 effect banks
- Human Interface control system

OBX offers **wider dynamics** and **greater realism** within an efficient, truly innovative, speedy and easy integrated **workflow** to meet each and every client's requirement.

OBX means **high performance**, **premium comfort** and **full reliability**. UNCOMPROMISINGLY.
